

Living Water

Reformed Church

The Goals of Our Church:

To honour God with all that we do and spend each of our days honoring Him with everything that we are, and enjoying His presence. To encourage those around us, and equip people to serve God with passion. We see interpersonal relationships as a very important part of our church, and we work to create positive and & meaningful relationships within our community.

Life is not easy, there are tough times, busyness, trials and pressures that can cause us to feel empty and alone. Here at Living Water Reformed Church we want to encourage each other to find hope and a meaning for living in Jesus Christ.
